A firm grasp of English grammar is essential for teachers. Yet rare is the grammar course focusing on your growth of personal knowledge and skill.

I am offering you exactly that kind of unique course. You'll explore the basics of English grammar—like the rules governing parts of speech, sentence structure, and punctuation. And you'll gain confidence in your ability to produce grammatically correct work.

With me as your instructor, memorable lessons, mentor text, and interactive activities will support your learning and provide models so you can turn the instruction in your classroom.

Join me and stir your memory of old, forgotten rules, learn some new ones, clarify things you've never quite understood, and discover your grammatical strengths.

Teacher Materials

are included in course fee

These materials will support your learning and equip you to turn instruction in classroom

I look forward to hearing from you!
